

Magic Wands

Make magical wands for a party or just for fun! Makes 12.

Adult supervision and assistance are required for all of the activities below. Where you see this symbol  then this step MUST be carried out by an adult.

What do I need?

An adult plus a pan, a bowl, a plate
12 pretzel sticks
80g (3oz) white cooking chocolate
Sprinkles or edible stars

How do I make it?

1. Break up the white chocolate into chunks and put into a glass bowl that will sit halfway into a small pan.
2.  Ask an adult to half fill the pan with hot water, put the bowl into the pan and put on a medium heat.
3.  Ask the adult to keep stirring until all the chocolate has melted. Remove the bowl from the pan.
4. Put some sprinkles, stars or other magical decorations onto a plate.
5. The chocolate should have cooled a little but still be liquid. Take a pretzel stick and cover at least half the stick with chocolate using a spoon. Turning the pretzel stick at the same time will stop the chocolate from dripping. Repeat with as many layers as desired.
6. Now roll the chocolate end of the stick in the sprinkles.
7. Put onto a plate and put into the fridge for 30 minutes to harden. Enjoy!

To make gluten free, use gluten-free pretzel sticks. To make vegan, check the labels on the chocolate and sprinkles bottles.
